Dear Joe,

In your position as President of Colorado Right to Life, the parent organization of American Right to Life and American Right to Life Action, we write to you today to inform you of our resignations as officers of American Right to Life and American Right to Life Action.

These resignations are effective immediately. Therefore do not use our names in support of any future ARTL projects including the launch of *prolifeprofiles.com*

The reasons for our departure are too numerous to articulate here, but suffice it to say that recent press articles, and an incident involving a key person within the Personhood movement have lead us to conclude that our goal of protecting innocent life, which includes teaching others to uphold a single clear standard regarding the right to life of innocent children, is not shared among many of our colleagues.

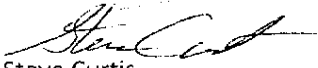

Therefore, we believe our efforts will be more effective in helping others understand the message of protecting life without the confusion of purpose that currently surrounds CRTL, Personhood CO, and Personhood USA.

We truly wish you all the best as you seek Gods purpose in this epic struggle.

Sincerely,

Brian Rohrbough
